

EPICA Directory Update:

As we mentioned in the December newsletter, we are working on an EPICA membership directory that we hope to have completed by early spring, 2020. The new directory will not be posted on the Website but it will be sent by email to all EPICA members. As property owners move into and out of East Piney Island, the directory will be updated and new editions will be published annually.

At present, we have directory information for about half of our members. The information includes the member's name, EPI address, email address and a phone number. In the next week or two, we will send email requests for directory information to fill in the gaps. If you receive a request, please respond as soon as possible. It will also be your opportunity to "opt out" if you do not want your information included in the directory. In February, we will send a draft directory to the membership for final review and editing.

Thank you for your support on this project!

East Piney Island Road Update:

Jim Young and Gregg Shirey have completed the grading and repair of the East Piney Island roads. The roads are currently in great shape – thanks Jim and Gregg! As we enjoy the smooth ride we'll need to remember to keep the speed down to ensure safety, minimize dust, and prolong the life of the recent road maintenance.
